नीचे दृशविले निशानीवाणी विगतो उत्तरवही पर अवश्य लभवी.
Fill up strictly the details of signs on your answer book

Name of the Examination:

1st B.H.M.S. Examination

Name of the Subject :

Human Anatomy Paper - 2

Subject Code No.: 1907000101020002-S

Seat No.:

--	--	--	--	--	--

Student's Signature

SECTION - I

Q. 1. Describe Anatomy of Thoracic duct with its clinical importance. (15)

OR

Q. 1. Describe Lungs with its clinical importance. (15)

Q. 2. Describe Knee joint with its clinical importance. (15)

OR

Q. 2. Write about.

1. Hunter's canal (08)

2. Azygus vein (07)

Q. 3. Write short notes. (any Three) (15)

1. Clavipectoral fascia

2. Sartorius muscle

3. Histology of Skin

4. Valves of Heart

5. Anterior Tibial Artery

RAN-1907000101020002-S]

[1]

[P.T.O.]

P2169

Q. 4. Write Answers.

1. Femoral artery is a continuation of
2. Sciatic nerve is a branch of
3. Branches of Arch of Aorta
4. Lung develops from
5. Full form of PDA

(05)

SECTION - II

Q. 1. Write down names of extrahepatic biliary apparatus with figure and describe anatomy functions and clinical importance of Gallbladder.

(15)

OR

Q. 1. Describe in detail about Anatomy and Clinical Anatomy of Pancreas.

(15)

Q. 2. Describe in detail about Urinary bladder with its Applied Anatomy.

(15)

OR

Q. 2. Write about.

1. Male urethra
2. Uterine tubes

(07)

(08)

Q. 3. Write short notes. (any Three)

(15)

1. Difference of Small and Large Intestine
2. Applied Anatomy of Anal Canal
3. Fascia Transversalis
4. Stomach bed
5. Scrotum

Q. 4. Write answers.

(05)

1. Enlargement of Spleen is known as...
2. Glucocorticoids are secreted by which gland...
3. Name any types of Duodenal fossae....
4. Name any one pouch of female pelvis..
5. Name the condition in which both gonads are present in male....

Name of the Examination:

F.Y. B.H.M.S

Name of the Subject :

Human Anatomy - Paper II (New)

Subject Code No.: 1907000101020002

Seat No.:

<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>
----------------------	----------------------	----------------------	----------------------	----------------------	----------------------

Student's Signature

- (2) Draw the diagrams wherever necessary
- (3) Figures on right side indicates full marks
- (4) Write each section in separate answersheets

Section I

Q.1 Describe Mediastinum with its bondaries, contents and its clinical importance. (15)

OR

Q.1 Describe the left side of Heart (left atrium and ventricle) (15)

Q.2 Describe Ankle joint in detail with its clinical importance. (15)

OR

Write about

1. Popliteal fossa (8)
2. Dorsalis Pedis Artery (7)

RAN-1907000101020002]

[1]

[P.T.O.]

P2169

- Q.3 Write Short notes (any3)** (15)
1. Femoral sheath
 2. Intercostal space
 3. Histology of Trachea
 4. Root of Lungs
 5. Intra articular structures of knee joint

- Q.4. Write Answers** (5)
1. Insertion of Quadriceps Femoris muscle
 2. Formation of Superior Vena cava
 3. Xiphoid process is a part of
 4. Diaphragm is
 5. To know the obstruction of oesophagus which investigation is done with a dye

Section II

- Q.1** Describe Anatomy of Stomach in detail with its clinical importance (15)

OR

- Q.1** Describe Anatomy of Liver in detail with its clinical importance (15)

- Q.2** Describe Anal canal with its clinical importance (15)

OR

- Q.2 Write about**
1. Clitoris (7)
 2. Prostate (8)

- Q.3 Write short notes (any 3)** (15)
1. Appendix
 2. Greater omentum
 3. Difference of False and True Pelvis
 4. Applied Anatomy of Gall Bladder
 5. Structure of Kidney

- Q.4 Write answers** (5)
1. An organ works as an endocrine and exocrine gland
 2. Absence of bilateral testis is known as
 3. Name the area which covers the internal surface of base of Urinary bladder
 4. Name the part of Male urethra surrounded by sphincter urethrae muscle
 5. Storage of R.B.C in which organ
